

Gila firmware Update Instruction:

Make sure the Gila gaming mouse is connected to your computer before you install the firmware update.

1. Unzip the file 「GilaFWUpdate_20130201」.

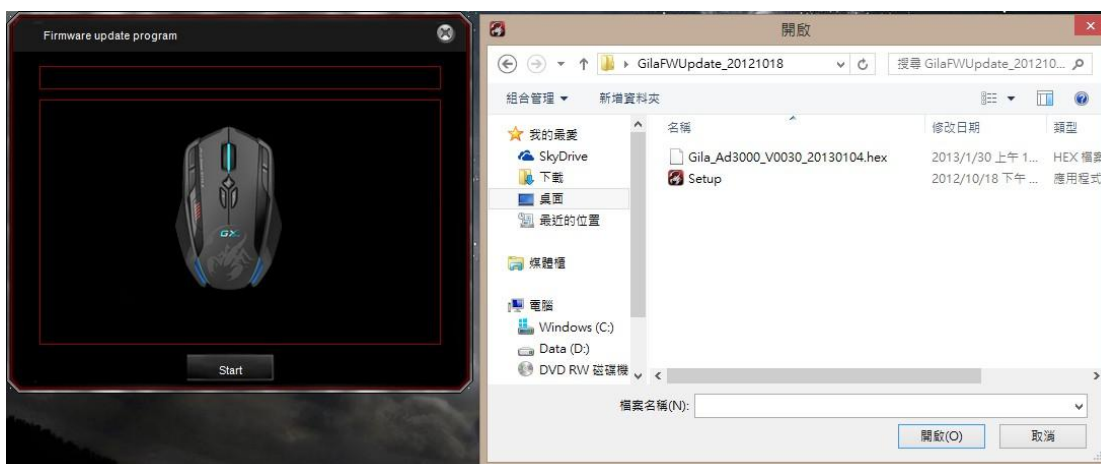

2. Install the program of firmware Update Setup.

3. After it is completely installed, double click on the icon 「Gila Firmware Update」 on the desktop

4. Click 「Start」 button to open the screen.

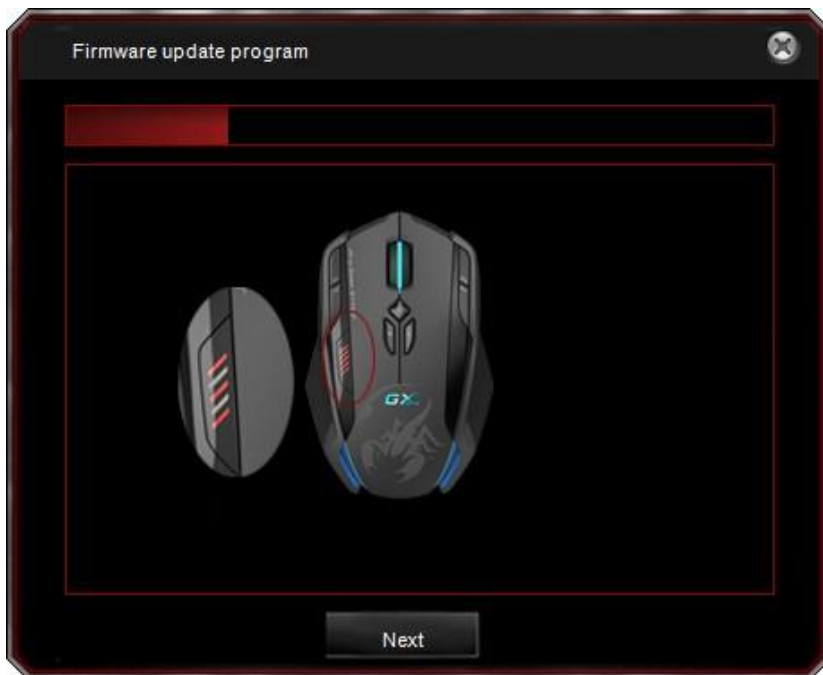

Select the file 「**Gila_Ad3000_V0030_20130104.hex**」 to proceed with the update.

5. Wait for about 10 seconds.

6. When the count down has finished, press 「Next」 button to proceed with the Firmware Update.

7. After the upper bar has completely turned to red, press 「OK」 button and the Firmware Update will be complete.
